MOST & PreemieCare Partner with CarePages

MOST and PreemieCare have partnered with CarePages. CarePages are private personalized web pages that help families receive support from friends and family and update family and friends on treatment progress. At MOST and PreemieCare, we know how important personal support from family and friends can be for mothers on bedrest or hospitalized during pregnancy, families with babies in the NICU, children with ongoing medical or developmental needs, or parents with medical challenges themselves.
